**TRANSFORMING GLOBAL HEALTH TOGETHER**

**AMERICAN  
COLLEGE of  
CARDIOLOGY®**

Dear Friends and Partners,

United by our shared commitment of transforming cardiovascular care, the American College of Cardiology and Hellenic Society of Cardiology invite you to join us for an innovative educational experience that will strengthen your everyday practice. ACC Middle East & Eastern Mediterranean 2023 is designed to deliver an engaging forum to critically examine evidence-based strategies as well as contemporary best practices and clinical decision-making to reach our common objective of improving heart health of patients with cardiovascular disease.

The congress is expected to be one of the largest cardiology congresses in the region with more 1500 – 2000 delegates attending from Europe, the Middle East and North Africa. The congress not only brings together international and local expertise to the cardiology field but also offers to the companies the opportunity to showcase their products and services to one of the largest gatherings of cardiology healthcare professionals from multiple countries. Strive to be your best and join us in our vision of a world where innovation and knowledge optimize cardiovascular care and outcomes.

On behalf of the American College of Cardiology and Hellenic Society of Cardiology,

Sincerely,
